To Whom this may concern,

Santa Maria has experienced massive devastation due to hurricane Ian. Among the devastation includes the electrical system throughout the building. The Board of Directors and the Electrical Committee is working to have the full electrical system restored. The electrical damages include but are not limited to what is listed has impacted the building's elevator system, electrical panel, wiring, backflow system, lighting throughout the property, fire panels, and door entry operations.

The property may be occupied at the owner's risk, but all others, including children, are not allowed on the premises due to the dangers that may be encountered. We are asking for the residents to stay off the premises, if possible, in an effort to stay in compliance with the Fort Myers Beach guidelines, for those residents who live at Santa Maria full time.

As progress is made the Board of Directors will continue to hold meetings and inform the residents.

Thank you for your compliance, patience, and understanding to the restoration of Santa Maria.

Warm Regards,

Marquita Green, LCAM  
On behalf of the Santa Maria Board of Directors.
